

Suhrobjon Teshazoda

Frontend Developer (React / Next.js / TypeScript)

Dushanbe, Tajikistan | suhrobtesha@gmail.com | github.com/SuhrobTesdaev | linkedin.com/in/suhrobteshazoda

SUMMARY

Frontend developer with 2.5 years of commercial experience in React, Next.js, and TypeScript. I take products from idea to production and own architecture and performance decisions. Delivered SaaS platforms, CRMs, admin panels, and mobile apps with bank payment integrations — combined product audience exceeds 60,000 active users.

I use SSR/SSG/ISR and Core Web Vitals optimization for fast loading and SEO. I cover code with tests (Jest, React Testing Library), set up CI/CD (GitHub Actions), and work within an Agile/Scrum team. I also work with Vue 3, WordPress, Flutter, and Kotlin. Currently learning Go.

EXPERIENCE

Frontend Developer — Livo IT Company

March 2024 — Present (2 years 3 months)

- Build client applications and admin panels on React/Next.js with REST API integration.
- Own the FSD architecture; stack: TypeScript, Redux Toolkit, RTK Query, Tailwind CSS, Storybook.
- Cover business logic with tests (Jest, RTL), set up CI/CD on GitHub Actions.
- Lead code review and sprint planning within an Agile/Scrum team, optimize performance (Core Web Vitals).
- Build complex business logic: calendars, multi-step forms, responsive interfaces.

Frontend Developer — BOBO Web Studio

3 months

- Built corporate websites and landing pages on WordPress, HTML, CSS, and JavaScript.
- Ensured responsive and cross-browser layout.

KEY PROJECTS

Below are the projects with the biggest business impact. Full demos, screenshots, and code are available in my portfolio:

Navbat — online booking platform (Next.js + React + Kotlin)

🔗 [business.navbat.tj \(B2B\)](https://business.navbat.tj) | [navbat.tj \(B2C\)](https://navbat.tj)

- Built the client website, admin panel, and Android app.
- Used by 10+ clinics and beauty salons.
- Integrated payment acceptance through several banking providers.

Asarfilm — Flutter mobile app

🔗 asarfilm.tj

- 21,000 downloads in the first week, 17,000 of them active users.
- 50,000+ active users over the last 5 months.
- Implemented subscription payments via a banking integration.

Livo Target — SMS marketing service for businesses (Livo IT Company)

🔗 sms.colibri.tj

- Designed an SMS broadcast service for companies' customer bases.
- Built 15+ audience segmentation filters.
- Integrated broadcast payments via a banking integration.

DiaryDeary — web service for creating your own book

🔗 DearyDiary.world

- Built a book builder: cover, font, and paper type selection.
- Integrated print payments via a banking integration.

Other projects (ICAP on Vue 3, Avrang, KabirExpress, SMS Parking, Insight, Jurat, WordPress websites and landing pages) — in my portfolio.
